Session 60: Medical Answers from Crithen

Short Summary: Medical diagnosis given for Patients

- Dr. Fallen questions
- Answers from Crinthen of Dr. questions
- Presence of Crinthen known by the growing white dot of light.
- Patient has the ability to heal himself, breath in good energy breath out bad energy.
- Second question from Jack
- Visualize a butterfly behind the eyes. Keep the butterfly in flight and moving. Breathing coming in the wings go up. Breathing out the wings go down keeps the butterfly in flight. The pace and rhythm. The butterfly is bathed in white light. Healing hands, draw in white light through the fingers fire the light at the patient wound site between apposing palms.
- Question about A friend who committed suicide tape cuts off

Comments:
The voice channel for the monitor is missing.
The methodology of the healing technique and healing hands is interesting.
